 E-mail: sayandip.jana24@gmail.com
 GitHub: [github/Sayandip_](#)
 Mobile: +91-8617005893

SKILLS

Languages:	Java, Python, TypeScript, JavaScript, SQL
Data Science & ML:	Pandas, NumPy, Regression, Classification, Clustering, Decision Trees, Random Forest, PowerBI, MS Excel
Generative AI:	LangChain, LangGraph, CrewAI, RAG, Vector Databases (Chroma), OpenAI, Gemini, Claude
Frameworks:	Next.js, React.js, Node.js, FastAPI, Prisma, Tailwind CSS
Databases:	PostgreSQL, MongoDB, Firebase, Supabase, Apache Hadoop, Apache Spark, MySQL
Devops & Cloud:	Git, Docker, Kubernetes, Jenkins, GitHub Actions, AWS, Prometheus, Grafana, Husky
Core Concepts:	Data Structures, OOPs, Database Management, Operating System, Computer Networks, System Design
Soft Skills:	Problem Solving, Leadership, Creativity and Innovation, Logical Reasoning, Team Collaboration

PROJECTS

AutoForge ML Studio — Cloud AutoML Platform | [Github](#)
 Feb 2026

- System Design & Architecture:** Designed a low-code AutoML architecture utilizing Google Vertex AI, decoupling dataset ingestion and model training to achieve sub-1-minute deployments.
 - GenAI Integration:** Integrated a multi-LLM assistant (GPT-4, Claude 3.5, Gemini 2.0) using LangChain and RAG pipelines for automated dataset profiling and real-time hyperparameter tuning.
 - DevOps & Observability:** Implemented CI/CD workflows using GitHub Actions and deployed fully CPU-free cloud training pipelines with live lineage tracking, real-time logs, and cost estimation.
- Tech stack:** Next.js 15, React 19, TypeScript, Firebase (Auth + Firestore + Storage), Google Cloud Vertex AI, OpenAI GPT-4, Claude 3.5, Gemini 2.0, React Three Fiber, Three.js, Razorpay, GitHub Actions, Vercel.

SplitX — Smart Expense Splitting & Settlement | [Github](#)
 Nov 2025

- Algorithmic Optimization:** Engineered a dual-algorithm debt settlement engine (Greedy Netting + Exact-Match Pruning) applying System Design principles to minimize transaction volumes by auto-selecting optimal settlement paths.
 - AI Agents & Parsing:** Built a conversational spending assistant using CrewAI / LangGraph, backed by a Vector Database for historical expense retrieval, alongside GPT-4o-mini Vision for <2s receipt parsing.
 - Cloud-Native Infrastructure:** Deployed an end-to-end GitOps pipeline (Docker, Kubernetes, Jenkins, Terraform) incorporating Prometheus custom metrics and Grafana dashboards for high-availability monitoring.
- Tech stack:** Next.js 16, React 19, TypeScript, Prisma, PostgreSQL (Neon), NextAuth v5, OpenAI GPT-4o Vision, Framer Motion, Docker, Kubernetes, Jenkins, Terraform, SonarQube, Trivy, Prometheus, Grafana, GitHub Actions.

HygieiaAI — AI-Powered Healthcare Platform | [Github](#)
 Aug 2024

- Multi-Agent Ecosystem:** Developed a scalable health platform utilizing LangGraph to coordinate specialized AI agents for Ayurvedic medicine, disease recognition, and menstrual health analysis.
 - Real-Time Processing:** Engineered a medical document scanner with <2s processing time using FastAPI and Gemini 2.0 Flash, achieving >94% accuracy in multi-disease prediction pipelines.
 - Emergency Response Engine:** Integrated Mapbox route optimization, Twilio SMS alerts, and interactive 3D health visualizations (Three.js), enabling a highly responsive, location-aware patient routing system.
- Tech stack:** Next.js 15, React 19, TypeScript, FastAPI, Python, Scikit-learn, TensorFlow, Supabase (PostgreSQL), Gemini AI, Plotly.js, Three.js, Mapbox GL, Razorpay, Twilio, Shadcn UI, Docker.

TRAINING

Machine Learning Made Easy | Lovely Professional University | [Certificate](#)
 July 2025

- Applied feature engineering, model evaluation, and supervised-learning techniques to healthcare datasets, building a strong foundation in machine learning workflows.
- Built a multi-disease prediction system achieving 94% accuracy using tuned ML models (e.g., XGBoost), demonstrating effective model training, validation, and performance optimisation.

CERTIFICATES

- Machine Learning and Deep Learning - NPTEL IIT Guwahati | [Certificate](#)
 Sep 2025
- DSA with Java - Apna College | [Certificate](#)
 Jun 2024

ACHIEVEMENTS

- Secured 2nd Runner-Up & ₹5L Seed Investment in SMG, TechForge '25 National Hackathon | [Certificate](#)
 July 2025
- Won 1st Place & ₹1L Prize, Web-A-Thon by OnDemand | [Certificate](#)
 Feb 2025
- Won Multiple Inter-University Hackathons | [Certificate](#)
 Apr 2024
- Solved 600+ Problems on [Leetcode](#)
 Feb 2023

EDUCATION

- Lovely Professional University
 Bachelor of Technology - Computer Science and Engineering: CGPA : 9.11
 Jalandhar, Punjab
 Aug 2023 - Present
- Contai Public School
 ISC, Intermediate: Percentage : 94.75%
 Contai, West Bengal
 Apr 2020 - Mar 2022
- Contai Public School
 ICSE, Matriculation: Percentage : 96.2%
 Contai, West Bengal
 Apr 2019 - Mar 2020
